Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Vance, Sr. (5220959).

Vance, Sr. discloses an apparatus 16 for anchoring two conduits 12, 20 via an inflatable device having a balloon portion 15.

Allowable Subject Matter

Claims 1-5, 8-14, and 16-22 are allowed.

Response to Arguments

Applicant's arguments, see page 9, filed 15 December 2003, with respect to the rejection(s) of claim(s) 1-5, 7, 13, 14, and 16-19 under 35 U.S.C. 102 (e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, upon further consideration, a new ground(s) of rejection is made in view of applicant amending claims 6 and 15 in independent form. These now independent claims are absent any mention of, or dependent upon a claim directed to, the expander structure. Thus, the new grounds of rejection based on a new reference.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jones (20030183395) presents a pinned support for an expander. Snider et al. (5297633) and Coone et al. (5027894) display anchoring two conduits.
